Delete the text that has been ~~struck-out~~ and insert the text that has been underlined.

4.10 CHARTS, PLOTTING ~~PILOTING~~ EQUIPMENT AND BOOKS

4.10.1

- | | | |
|-----|---|-----------|
| (a) | Navigational charts for the current race (not solely electronic) , and chart plotting equipment <u>(may be electronic)</u> shall be provided. | 1 2 3 4 5 |
| (b) | Charts shall contain details of likely ports of refuge. A
<u>back up electronic chart system (can be handheld) or set of paper charts is required.</u> | 1 2 |
| (c) | A list of lights or navigational charts which show details of lights likely to be visible from the race area shall be provided.
<u>If both chart sources are electronic they are to have independent power supplies and chart data.</u> | 1 2 |
| (d) | <u>All electronic chart data is to be downloaded to an Electronic Chart System (ECS) or available on a data storage device prior to starting and not dependent on internet or phone service connection.</u> | 1 2 3 4 5 |
| (e) | <u>Unless using official Electronic Navigational Charts (ENC) or raster charts all other electronic charts should be compared with official Government charts to ensure no dangers have been omitted prior to starting.</u> | 1 2 |
| (f) | <u>If using paper charts or individually selected ENC they shall contain details of likely ports of refuge.</u> | 1 2 |
